

September Family Project:

Scrapbook Page

During the past few weeks we have been learning how our families are special and unique. Your family project this month will be to create a scrapbook page of your family. I am sending home a 12x12 sheet of scrapbook paper for you to complete this project on. The page should be decorated with pictures or drawings of your child and/or a photo or drawing of the family. The pages can be decorated with any materials to show your child's personality (magazine cut out or drawings of favorite foods, sports, etc...). As you complete your page please send it to school. I will add completed pages to our class book daily. As always your child will have the opportunity to share their project with the class.

Happy scrapping,
Mrs. Esterline
